RESEARCH

Digital Naturalism Laboratories

Director, Co-Founder

2019 - Present

Dinalab puts my academic research into action. We built our own rainforest field-station to develop new technology in intimate proximity to nature. This, award-winning, solar-powered makerspace functions as a lab and residency for local and international artists, scientists, and technologists. We also teach field courses and receive commissions for talks, classes, and workshops at places like: Glasgow School of Art, Harvard, MIT, Copenhagen Institute of Interaction Design, UC Boulder, UW, NYU, Aarhus, and the National Academy of Sciences.

PROFESSORSHIPS

University of Washington

Affiliate Professor of Design + Engineering

2024 - Present

Advising engineering students and working on scientific automation grants such as the NSF-Funded "Pathways to Open Source Ecosystems, Phase II (2025).

National University of Singapore and Yale-NUS

(Joint Appointment) Assistant Professor of Interactive Media

2016 - 2019

Exploring Digital Naturalism's research at the professional, academic tenure-track level. Teaching interactive art and design concerned with natural systems, our students developed projects installed at institutes like the Singapore Zoo and Art Science Museum.

OUTREACH

Discovery Networks - "Hacking the Wild"

Television Host and Designer

2015 - 2017

Starred in an international TV show based on my PhD Research in "mobile making" concepts. The show syndicated to networks on 6 continents under names such as "Sin Cobertura" (Latin America) and "Dijital Kurtuluş" (Turkey).

Education

Georgia Institute of Technology

Ph.D. Digital Media - "Digital Naturalism"
M.S. Digital Media (Best Thesis Award)

2009 - 2015

My "Digital Naturalism" research investigates physical computing for biological field research. This independent research developed techniques and tools with scientists in rainforest expeditions to help engage animals and environments in novel ways.

University of Illinois Urbana-Champaign

B.S. Industrial Engineering [Highest Honors]
B.A. Film Theory and Production [Campus Honors]

2004 - 2008

Studied engineering, problem solving, experimental media, and interactive performance. Received highest marks and full academic scholarships.
